

## MHCO IS COMMITTED TO YOUR SUCCESS

Menonite Home Communities of Ohio (MHCO) is committed to providing exceptional service in a setting that promotes personalized care specific to your rehabilitative needs. The goal of helping you reach your highest level of functional independence isn't just your goal — it's ours too! We want to help you achieve long-term results and success so you can enjoy life to the fullest!

## SERVICES OFFERED DURING YOUR STAY WITH US

### Physical Therapy (PT)

Our PT programs incorporate stretching, exercise, balance and functional mobility training to help you move in an efficient, less painful manner. With the guidance of a physical therapist, you can develop a fitness program that will be most beneficial for you.

### Occupational Therapy (OT)

Our OT programs maximize a person's ability to perform "activities of daily living," such as dressing, cooking, bathing, toileting, writing, and other common household, hobby and work-related tasks.

### Speech Therapy (ST)

Our ST programs are designed to treat people who cannot produce speech sounds, who have cognitive impairment such as attention, memory and problem solving disorders, and to work with people with swallowing difficulties.

---

*Thank you for choosing MHCO's  
Transition to Home services to fulfill your  
short-term rehabilitation needs.*

---

Following your discharge from one of our Transition to Home rehab programs, Menonite Home Health & Senior Services is here to help you make a smooth transition back to your home. With therapy, medical and non-medical support available in the privacy of your own home, our professional staff is committed to helping you thrive as they have been doing for patients in Allen, Putnam, Hancock and Hardin counties for nearly 20 years!

## TRANSITION TO HOME

MHCO has been serving clients for many years through our short-term rehab programs. In 2010, Hilty Home opened its Transition to Home Rehabilitation Center with six private rooms with private baths and a new therapy room. In 2014, Menonite Memorial Home opened its Transition to Home Rehabilitation Center, with twelve private rooms with private baths and a new therapy room with a "just-like-home" kitchen and full bathroom for occupational therapy.

Our Transition to Home Centers focus on the clients, promoting a pleasant environment that enables people to focus on working toward their health and wellness goals.

Therapy is hard work, but the benefits will help you reach a safe, healthy level of ability as you look forward to getting back to your daily routine and returning to your home.

*Living • Restoring • Growing*  
*In a Christian Environment*
