### **Continuing Business**

#### Tree Removal:

Three trees (two Osage Orange, one Crabapple) at the entrance to the Village Park previously slated for removal at the last meeting due to extreme poor health have now been removed.

One small maple tree on W Elm St. still needs to be replaced, and one maple tree on Main St. has yet to be removed.

#### Tree Health:

The oak tree at 588 S Main St. has been exhibiting signs of distress for some time, and the homeowners have expressed that the tree has become an eyesore and a nuisance due to curled browned leaves, as well as falling leaf and stick debris collecting in their driveway. The homeowners' granddaughter and her husband attended the meeting on behalf of the homeowners. They feel that proactive care of the tree has been lacking, and have asked the Tree Commission to take action to remedy the situation.

The Northwest Ohio region's Urban Forester, Steph Miller, examined the tree in July of 2021, and per her recommendation, the Tree Commission sent leaf material to OSU's Plant and Pest Diagnostic Clinic for testing in October of 2021. The leaf samples tested negative for bacterial infection, and the lab indicated that nutrient deficiency was a more probable cause of the tree's distress, which was consistent with Ms. Miller's assessment, based on her July 2021 physical inspection of the tree.

Per Ms. Miller's recommendation, the Tree Commission extended the mulched area around the tree, and added fresh organic material and mulch to increase the acidity of the soil as well as the bioavailability of the nutrients therein, and has continued to monitor the tree's health. The homeowners have subsequently replaced the mulch around the tree with river rock, but have indicated that they were unaware that doing so could be detrimental to the tree, citing a lack of educational materials from the Tree Commission about proper care of the tree.

At the request of the Tree Commission, Ms. Miller conducted another examination of the tree on September 13th, 2024. Her assessment was that the tree could have a genetic defect, or more likely, a nutritional deficiency, and that at its current size, it may simply have greater nutritional needs than can be satisfied within the constraints of the tree lawn. However, although its condition is not ideal, it is not in imminent danger of dying.

While the tree has not met unequivocally the criteria for removal per Ordinance No. 07-03, the Tree Commission will consider approving removal of the tree. The commission will obtain a cost estimate from a competent entity for the tree's removal, and the matter of who will bear the burden of the cost in the case of removal will be decided following receipt of the cost estimate.

#### Village Park Entrance:

The Tree Commission has received one proposal for a landscape design for the entrance to the park, and will continue to pursue a variety of designs before making a decision.

#### **New Business**

### Tree planting:

Following is a list of trees approved for planting in Fall of 2024:

Elm Street - tree lawn @ University	Royal Burgundy Cherry	3
Lawn Ave	Skyward Bald Cypress*	1
357 S Jackson St	Eastern Redbud*	2
Community Pool, near edge of woods	Monumental Planetree	2
E College Ave, at 161 S Mound St	Tupelo Tower	1
Augsburger Rd, across from stadium	Yellowwood	2-3

\*Variety to be confirmed upon conversation with homeowner.

#### **Arboretum:**

The arboretum is in need of fresh mulch, should be scheduled to be mulched before mowing begins again in the spring, to provide adequate protection to the tree roots from errant mower blades.

#### Tree Health:

One Zelkova tree on Elm St. near the University appears to have died, rather suddenly, and the cause is unknown. Another Zelkova nearby has damage to the trunk near the base, with bark splitting and peeling away from the area, perhaps from a vehicle collision or similar trauma. The tree appears to be recovering, and the Tree Commission will continue to monitor its health.

The next Tree Commission meeting is scheduled for Wednesday, November 13th, 2024 at 7:00pm.
