**H**igh water isn't new in Bluffton.

**B**ut each time it occurs the photos remind us of how quick the quiet little stream that flows through Bluffton can turn against us.

**T**he photos in this collection show water levels between noon and 1 p.m. on Saturday, June 27, 2015. At this time only East College Avenue was closed to traffic.

**W**ater continues to rise. Watch for a late afternoon photo comparision.
